

M E M O R A N D U M

TO: *[Signature]* DIVISION OF WATER POLLUTION CONTROL - FIELD OPERATIONS SECTION
FROM: John A. Gordon - Region V
SUBJECT: CRAWFORD COUNTY -- Briggs Manufacturing
DATE OF VISIT: February 10, 1976

[Handwritten: 2/10/76]
[Stamp: RECEIVED REGION V DIVISION OF WATER POLLUTION CONTROL]

* * * * *

On the above date, I visited the above captioned facility located in Robinson. At the facilities, I contacted Mr. John G. Moore, Plant Engineer, and Mr. J.T. Warren, Plant Manager. The purpose of my visit was to familiarize them with NPDES DMR reporting.

Previously, this facility was judged to be in non-compliance for failure to submit NPDES DMR report forms. Mr. Moore indicated that they were unaware that the NPDES report forms were required since he had been submitting forms to the State on a different type of format. I explained their NPDES permit and reporting requirements to both Mr. Moore and Mr. Warren. They both indicated that the forms would be submitted beginning February 1, 1976.

The above is reported for informational purposes.
